EXPERIENCE

COGNIZANT

2024 April-2024 June

Software Trainee Analyst

Two Months Virtual CSD Training .

Gained Knowledge in Java and SQL.

SKILLS

Programming languages - Java , C Programming , Python , HTML , CSS , Javascript .

Libraries/Frameworks - React Js , Express Js .

Database - SQL , Postgresql .

EDUCATION

- ☐ Bachelor of Technology in Computer Science and Engineering. 2019-2023
College of Engineering Thalassery
CGPA - 7.71/10
- ☐ Higher Secondary . 2017-2019
Ramavilasam HSS
Percentage - 95/100
- ☐ Secondary. 2016-2017
Ramavilasam HSS
CGPA - 10/10

PROJECTS

- ☐ **Real Time Analysis of Electricity Consumption**
Developed a smart metering System using IoT devices to monitor electricity consumption in real-time. This helps households and businesses to manage their energy usage efficiently and reduce cost .
 - Technologies Used : Microcontrollers , Sensors , Firestore.
- ☐ **Automated Attendance System Using Face Detection**
Automated Attendance system leveraging face detection and recognition. System streamlines attendance tracking for educational institutions and workplaces.Leveraging the power of computer vision,the system uses OpenCV library to detect and recognize faces.
 - Technologies Used : Python , OpenCv , NumPY , Pandas , DBMS.
- ☐ **To-Do List - [Link](#)**
A user-friendly To-Do List that allows users to manage their tasks . Storing the todo items in the database and allowing users to edit the items. Users can Create , Read , Update and Delete Items from the list .
 - Technologies Used : Node js , Express Js , HTML , CSS , Javascript , EJS , Postgresql .
- ☐ **E-commerce Website - [Link](#)**
A E-commerce Frontend Website built using React Js . The website allows users to go through the items for shopping .
 - Technologies Used : React Js , Node js , HTML , CSS ,Javascript .

LANGUAGES

- English , Malayalam , Hindi , Tamil.
